Subject: RE: Audit Coordination for OIG - Program Evaluation on Disaster Debris

Dear Ms. Stein,

Mr. Ostrander is will be unavailable for an indeterminate time, but at least several weeks. He is part of the core team supporting the Regional Administrator in responding to the Gold King Mine incident. He is deployed to Durango, Colorado, and is engaged in highly time sensitive response activities. The incident has received considerable national attention, Administrator

McCarthy released remarks concerning this situation today:

<http://www2.epa.gov/goldkingmine/epa-administrator-gina-mccarthy-8112015-remarks-gold-king-mine>

Mr. Ostrander is a key member of the Unified Command center in Durango that the Administrator references in her remarks.

Let me know if you have any further questions. Thank you.

Wayne Anthofer

OIG Evaluation of EPA Oversight of Disaster Debris Management

To Ostrander, David

Cc Hanna, Steve; Chugh, Alisha

Bcc Stein, Olga

 Message  Disaster Debris Fieldwork Notification 7-2-15.docx (52 KB)

Hello David,

As you may already be aware, the OIG is currently in the fieldwork phase of our evaluation of EPA Oversight of Disaster Debris Management. Attached is the Notification Memo that was issued to Mathy Stanislaus on July 2, 2015.

The OIG's objective is to determine whether the EPA Office of Solid Waste and Emergency Response (OSWER) has worked with appropriate federal agencies and verified that states have planned for disaster debris management.

We would like to interview you and ask a few questions on this topic. What is your availability on the week of August 17th?

Thanks,
Olga
